

Room No:

Time: 7.30-8.30 a.m

Day: Monday

No	Date	Title	Lecturer	Pages Reference
1	1398.11.21	Moderate Nonskeletal problems(1): orthodontic Triage	<i>Dr. Zaeim</i>	356-364
2	1398.11.28	Moderate Nonskeletal problems (2): Management of occlusal relationship problems (Ant. & Post. Cross bite, Ant open bite & Deep bite)	<i>Dr. Zaeim</i>	364-375
3	1398.12.05	Moderate Nonskeletal problems(3): Treatment of space problems <u>A</u> (space maintenance and space regaining)	<i>Dr. Zaeim</i>	388-394
4	1398.12.12	Moderate Nonskeletal problems(4): Treatment of space problems <u>B</u> (Mild to moderate incisor crowding with adequate space, space management, generalized moderate crowding and spaced and flared maxillary incisors and maxillary midline diastema)	<i>Dr. Zaeim</i>	394-400
5	1398.12.19	Moderate & complex Nonskeletal problems(1): Eruption problems (over retained primary teeth, ectopic eruption, supernumerary teeth)	<i>Dr. Zaeim</i>	375-383
6	1398.12.26	Moderate & complex Nonskeletal problems(2): Eruption problems (Delayed incisor eruption, ankylosis, Asymmetric dental development and impact of radiation therapy)	<i>Dr. Joshan</i>	383-384 402 402 404-406
7	1399.01.18	Moderate & complex Nonskeletal problems(3): Missing, transposition, PFE & traumatic displacement	<i>Dr. Joshan</i>	402-404 407-408 413-418
8	1399.01.25	Complex Nonskeletal problems(1): Space related problems (A) Excess space, maxillary dental protrusion and spacing, localized moderate to severe crowding	<i>Dr. Yassaei</i>	409-413 419
9	1399.02.01	Complex Nonskeletal problems(2): Space related problems (B) Generalized moderate and severe crowding and serial extraction	<i>Dr. Yassaei</i>	419-426

Room No:

Time: 7.30-8.30 a.m

Day: Monday

10	1399.02.08	Treatment of skeletal transverse and class III problems(1):Growth modification in transverse plane(A):Palatal expansion in primary ,early ,late mixed dentition and early permanent dentition	Dr.Moradi	430-439
11	1399.02.15	Treatment of skeletal transverse and class III problems(2):Class III G.M,anteroposterior and vertical maxillary deficiency(cont.)	Dr.Haerian	440-444
12	1399.02.22	Treatment of skeletal transverse and class III problems(3) Class III G.M,anteroposterior and vertical maxillary deficiency(cont.) &mandibular excess	Dr.Haerian	444-452
13	1399.02.29	G.M in class II,open bite/deep bite and multidimensional problems(1):evolution,functional appliances and components of functional appliances , Head gear	Dr.Aghili	455-459 465-468
14	1399.03.12	G.M in class II,open bite/deep bite and multidimensional problems(2):treatment procedure and clinical management of functional appliances	Dr.Aghili	468-472
15	1399.03.19	G.M in class II,open bite/deep bite and multidimensional I asymmetry problems(3):combined vertical and anteroposterior problems &facial asymmetry	Dr.Rafiei	484-498
16		Retention (1): Why is retention necessary? Removable & fix retainers	Dr.Rafiei	579-588
17		Summative Evaluation	staff
